### THE COMING COMBAT

Tuesday Will Decide the Politics of the Four New States.

North and South Dakota Will be Certainly Won by the Republicans by Good Majorities.

Montana Almost Certainly Democratic, While Washington is Looked Upon as Debatable Ground .

ST. PAUL, MINN, Sept, 28.-Tuesday next the voters of North Dakota, South Dakota, Montana and Washington territories will cast their votes for or against the several constitutions prepared for their consideration by the various constitutional conventions, thereby announcing their birth as states in the American Union, and at the same time they will choose officers whom they wish to govern them at home and to represent them at the national capital. The campaigns which have been waged during the past few weeks in the dif-ferent territories have been characterized by the various expedients usual to American commonwealths, and have been hard and well fought battles for the supremacy of party princi-ples and candidates. "Fargo" John Miller, oublican candidate for governor, has made a steady fight on the tariff issue as it affects the farmer, and the campaigning done by the Democrats has tended to help his arguments in favor of a protective tariff. He has een well supported by the congressional candiate, H. C. Hansberg, and on this issue the fight has been waged. Regarding the general result in North Dakota John M. Quinn of Bismarck, a strong Democrat and newspaper man, a resident there for some years and abundantly able to judge as to the question, expresses the opinion that the highest figures the Republicans should expect is 5000 majority, and this may be reduced to 1000 or less. He also thinks the Democrats have very good chance of ecting one or more candidates which chance would have been much better had more outside assistance been furnished them. He believes D. W. Maratta, the Democratic candidate, stands a good show of being the first congressman, and W. N. Roach, Democrat, may become the first governor.

On the other side John A. Rea. a well-informed correspondent and Republican, figures out a Republican plurality of 11,000. Between these two estimates lays the Republican maority, the majority for delegates from the inties from which North Dakota was formed at the last congressional election being about

The present territorial governor, A. C. Mel-lete, will undoubtedly be the first governor of South Dakota, while the Unided States senatorship lies between Messrs. Moody, Pettigrew and Edgerton, the first and last of whom were chosen by the former "wanted-to-be" state leg-

It may be said certainly that the Dakotas will elect Republican officers, that being admitted by Democrats, but nothing positive can be said concerning the result in Montana. Capt. Moffitt of this city, editor of the St. Paul Globe, expresses the opinion that Montana will be close with chances in favor of the Democrats, and that Washington will be close with the advantage on the Republican side. It is undoubtedly the case that in the Mountain state that whatever losses the Republicans may suffer will result from over-confidence on the part of the national commit-tee, but Montana Republicans are working hard and thoroughly at the close of the campaign. Information received by the Pioneer Press from Montana is to the effect that the Republicans stand a good chance of electing the legislature and the candidate for con-gressman, but there is a chance that J. B. Toole. Democrat, may have a majority over T. C. Pow ers, Republican, for governor. Protective tariff has been advocated by both parties in Montana. In brief, Montana seems to be debatable ground with a fair chance of victory for either party.

As to Washington the idea is that the Re pubcans will carry the election for congressmen, st are officers and the legislature. If the state election turns out according to the claims of Republicans there will be a Republican gain in the national house of five votes and in

the senate eight, but if the Democrats do what they anticipate there will be chosen four Republican representatives, one Democrat and six Republican senators. In other words, at the lowest estimate the Republicans will have a not gain of three votes in the house and four in

Special to the Gazette. Bowie, Tex., Sept. 28 .- Z. T. Lowrie, J. H. Hooper and G. F. Thomas organized areal estate and immigration company here this week, The constant inquiries after fruit and farm land in this section made the organization of a company necessary. There is no doubt that this portion is destined soon to become the most famous portion in the South as a fruit growing country. Pears, apples, apricots, peaches and berries of all kinds grow and produce well here. Lands can still be had at from four to twelve dollars, out is being fast taken up.
Yesterday it commenced raining and still con-

innes to rain. We are very uneasy for the result on cotton, as large quantities is open in the patch and will be ruined. Cotton has been comng in this week at the rate of 100 bales per day, and brings \$9.25 to \$9.85. Bowle will build five new brick buildings this all and winter. Agin got a bottle of whisky and Reed drank with him. They drank again and again, and the se-ductive Agin renewed his request to Reed. They went and Kimball was murdered. Clifford, the man who it was at first thought had merely made a clerical error. It has been discovered, it is now alleged, that Clifford took some of the money, his shortage as nearly as can be ascertained, being \$39,000. It is alleged he has fled, and the police are sending descriptions of him to all principal cities His alleged embezzlement and flight has aroused fresh suspicions on the part of members of the firm. Some time ago the store of the firm, together with its books were destroyed by fire, and the suspicion now is it was a case of incendiarism firing, being set for the purpose of destroying the books with whatever evidence of dishonesty they may have contained.

Only Surviving Son of Davy Crockett Dies Near Granbury. Granbury News.

Died-At his residence on Rucker's creek, on Monday morning, the 23d inst., Robert Patton Crockett, in the seventy-third year of his age. On the evening of August 11 he sustained serious injuries by a frightened team running away with the wagon. After suffering intensely for forty-three days his robust constitution succumbed to fate's harsh decree and the weary spirit was released from its earthly tenement. Devoted relatives, ardent friends and the faithful hysician did all in their power to restore him to health and alleviate his sufferings, but all to no avail. Step by step the battle for life was fought through many long days and sleepless nights, and the sufferer bore it with Christian fortitude to the last. As he lay on his bed of torture and knowing that ultimate recovery was not possible, he longed for death to release him, saying, 'I am ready to go. My days on earth are numbered.' In his last moments he was conscious, and died, as he had lived, in the full triumph of a living faith. Among his last conscious expressions were, "I know that my Redeemer liveth." In early life he gave his heart to God, becoming a member of the Methodist Episcopal church South, and continuing a consistent member of the same up to his death. He was one of Hood county's pioneer settlers, locating here in 1854. His death removes the only remaining son of Davy Crockett. Immediately after the fall of the Alamo and the massacre of his father by Santa Anna's brutal soldiery, he left his home in Tennessee and joined the Texas Revolutionists. After peace was declared and victory achieved by the Texans, he returned to Tennessee, where he married and settled down. In 1854 he moved to Texas, bring-

## A LIFE SENTENCE.

Tom O'Connor Convicted of the Brutal Murder of John Dee in 1871.

Details of the Crime, His Escape, and His Subsequent Capture Which was Led to Through a Civil Law Suit-

Special to the Gazette.

SAN ANTONIO, TEX., Sept. 28.-A telegram was received here to-day conveying the information that Thomas O'Connor, Jr., had been convicted at Meridian, Tex., of murder and sentenced to ninety-nine years in the penitentiary. O'Connor is a member of the well-known and wealthy O'Connor family of Southwest Texas. Eighteen years ago while assisting in driving a large herd of the O'Connor family cattle 'to Kansas, young Tom O'Connor murdered in cold blood, near Meridian, John Dee, who had charge of the herd. The murderer was arrested and broke jail, and was not heard of until about a year ago when, through attorneys, he filed suit in the Federal court here for a portion of the vast estate of Thomas O'Connor, Sr., who died two years ago leaving property valued of \$2,000,000. The suit was for \$75,000 and was brought by a convergence leading \$75,000 and was brought by ex-Governor Ireland. Through the fifing of the suit young O'Connor was traced to New Orleans and was extradited, By his conviction to-day the suit in the Federal court will be dismissed and will remove from the docket of that tribunal a case which promised Correspondence of the Gazette.

MERIDIAN, TEX., Sept. 27.—A verdict has just been rendered in the Tom O'Connor murder case, giving a life term in the penitentiary, This case has many peculiar features. The de-fendant murdered one John Dee in the spring of 1871. Dee was the boss of a large herd of cattle belonging to Tom O'Connor, Sr., uncle of the defendant, and young Tom accompanied the herd as a hired hand. On the morning of the 15th of May Dee was sitting by the camp fire awaiting breakfast, when Tom walked up behind Dee with a drawn ax and struck him in the forehead. O'Connor then got him a cup of coffee, but being disturbed by the gurgling sound from the throat of Dee, got his pistol, exclaiming: "I don't allow any d— man to make a fuss when I am eating breakfast."

At the same time he placed the revolver to Dee's head and shot. Dee tumbled over and was dead. O'Connor took the money from Dee's person and started for Kansas with the herd, leaving the body unburied, but was arrested in Johnson county. He was tried in 1872, but the jury failed to agree, eleven being for acquitting him. About two years ago old man O'Connor died leaving a handsome prop-

erty. Tom brought suit for a large amount of this property, alleging in his petition that his res-idence was in Louisiana. He has resided in New Orleans since 1873, married and doing well. The other O'Connors seem to have been aware of his (Tom's) whereabouts, but said nothing until suit was brought by Tom. One of them visited Meridian accompanied by a Mexican, who, on trial, gave the facts of the killing and searched for lost papers, etc., in the old forgotton O'Con-nor case. A new bill was found, Tom was arrested, and Congressman Crain prosecuted with the result as stated.

The G. A. R. will not Make Corp. Tanner a Campaign Issue.

Messrs. Tanner and Dalzelf Can Write Letters from Now Until Doom's Day Without Effect.

Gen. Campbell of Kansas Believed to be the Man Who Will be Made Pension Commissioner this Week.

Nothing to Fear from the G. A. R.

Special to the Gazette. Washington, Sept. 28 .- Gen. Campbell of Kansas is the man who will in all likelihood inherit the office vacated by Tanner. A number of prominent politicians called at the White House to-day in Campbell's interest. What-ever uneasiness the president has had concern-ing the effect of Mr. Tanner's forced resignation has passed away. He does not fear that any great national issue will arise from it who t comes to the Grand Army. The president is regarded as a comrade in as good standing as Tanner. He expects to put a good man at the head of the pension office with respect for both law and justice. The administration has no less sympathy for the veterans of the war than has marked it from the first. There is a very general opinion among the lead-ing public men at present in Washington that neither Mr. Tanner or Private Dalzell is

and that no amount of letter writing between them can make them so. There is no doubt that when the pension office is reorganized every-thing will be to the satisfaction of those interested. Private Dazell's letter to Mr. Tanner stating why he published the latter's letters and claiming he had been promised the deputy commissionership is treated as a matter of little importance. Private Dalzell's disposition to be dramatic is well know, and while he may think that he was personally wronged in not being given the deputy commissionership, it will t very difficult for him to convince any one familing with him his aged mother, Elizabeth Crockiar with the president that he ever promises Dalzell the office or authorized any one else to

Fire at Ennis. Special to the Gazette. ENNIS, TEX., Sept. 28.—This morning at about 4:45 o'clock fire broke out in the City bakery, in the rear of Miss May Edwards' millinery store. The building was owned by J. F. Mulkey and was occupied by E. Lehman, baker; Clark & Blakey, wareroom for stoves, wagons. nardware, etc., and by a negro dive and billiard room owned by Wartelsky, saloonist. The different fire companies responded promptly to the alarm and soon had two streams of water playing on the flames, making them masters of the situation. The losses are: Clark & Blakey, two hundred and fifty to three hundred dollars; E. Lehman, something over one hundred dellars; Wartelsky, three hundred to three hundred and fifty dollars; J. F. Mulkey, five hundred to one thousand dollars on building. There was no insurance on these losses. Miss May Ed-wards, who carries from three thousand to four thousand dollars in stock, was damaged about five hundred dollars by smoke, but was fully in-sured. #### of an incendiary. LONGVIEW.

A Midnight Assault on a Lady by a Hired Man-Cotton Receipts-

Special to the Gazette. Longview, Tex., Sept. 28 .- A young German named Calvin Oberly, who had been employed by C. F. Batt as a farm hand for a long time,

and who had the perfect confidence of the family, attempted to commit rape upon Mrs. Batt about 10 o'clock in the night while her husbana, who runs a shoe shop here, was absent. It seems that Mr. Batt, whose farm is eight miles from here, often gets home late at night when pressed with work in the shop, and sometimes pressed with work in the shop, and sometimes remains in the shop all night, and to accommodate Mr. Batt the bedroom theory was not locked. Knowing this Oberly attempted to palm himself off for Mr. Batt, and but for exreme excitement might have succeeded. He got into the lady's room and approached the bed, but shook the apartment so that it awoke Batt, who thought from the trembling noise that one of the dogs was trotting over the floor, and turned quickly over and her knee struck the fellow, who was in the act of getting n the bed. Before he could catch hold of Mrs. Batt she sprang out of the bed, gave the alarm and rushed into her grown son's sleeping-room, awoke him, mence work next Monday. Thr Otees Abandon their Reservation and Cast Lots With the Iowas-

GUTHRIE, I. T., Sept. 28. -Interpreter Murray of the Iowa tribe of Indians, writes to the News here that the Otoes have commenced to take up lard in the Iowa reservation, having abandoned their own reservation near Red Rock. A council between chiefs of the two tribes last spring resulted in an agreement that the Iowas would permit the Otoes to occupy the Iowas' reservation with them, it being too large for their own use and the

Otoe's reservation being insufficient in size to support the tribe. The government at Washington was notified of the agreement and was asked to give consent to the pinn. Nothing has been heard from the government since and now the indians have determined to consummate the plan without the government's consent.
